

Society for a Science of Clinical Psychology
Board Meeting Minutes
January 25, 2018, 12:00-1:00 pm EST

Present: Dean McKay, Carolyn Becker, Scott Lilienfeld, Kate McLaughlin, Andrea Niles, Kate Wolitzky-Taylor, Tom Olino, Bob Klepac, Rosanna Breaux, Kelly Knowles, Joya Hampton

This was the first board call meeting for the year. After brief introductions among members, the board agreed to return to distributing summaries of board meeting minutes to the membership.

As SSCP is an approved Continuing Education Sponsor, the board began discussing whether and how we could begin to offer our own CE trainings. The discussion considered the following:

- Identification of required CE by states where SSCP could offer high quality trainings, including: multicultural education, ethics, supervision, and others.
 - To further identify ways to ensure offerings cover necessary topics, board members are identifying requirements by individual states
- Exploration of best routes for offering CE via webinar would be pursued
- Possibility of offering in-person workshops that SSCP would sponsor at annual meeting of APS
- Discussion of other partnerships to offer workshops, such as through other organizations
- Long range aim: for SSCP to identify a unique niche in CE offerings

Next board meeting is scheduled for February 22.
